

The Mullaghmore Walking Experience

Immerse yourself in the magic of the hidden Burren with Marie McGauran, a native Walking Guide who leads heritage, nature and spiritual walks in the Burren.

The guided walking tours are stimulating; a complete engagement in this wilderness where one can absorb the peace, stillness, and beauty of this magical ground.

The walk among the limestone presents an opportunity to discover and gain insight on the flora, fauna and archaeological remnants of the past.

The visitor comes away feeling energized and enriched for having had the opportunity of walking with Marie and being physically present in this landscape called the Burren, a Magical Portal into Ireland's Soul.

- This experience is fully personally guided through English.
- Marie also speaks some Irish.
- For some of the walks a moderate level of fitness is required. It also caters for visitors with less mobility. eg A wheelchair accessible walk is available and one to one walks.

Top Tip: The terrain for walks can be uneven and rugged so suitable footwear is recommended. Waterproofs & small rucksack for personal items are recommended.
